Better Products for a Better Future™

At Epson, we know that planning for the future requires a strong commitment to environment. That is why we strive to create innovative products that are reliable, recyclable, and energy efficient. Better products that use fewer resources help ensure a better future for us all.

"EPSON ESC/P2 stands for Epson standard code for printers Level 2. This second generation printer control language supports scalable fonts as well as enhanced graphics capability. It also provides complete backwards compatibility with Epson's ESC/P, the standard printer language for dot matrix printing."
