Epson® GT-15000
Color Flatbed Scanner

The affordable workgroup scanner for colorful, large-size scans.

Imagine the productivity benefits of advanced technology in an affordable large-format scanner. A versatile workgroup performer, the Epson GT-15000 makes your vision a reality. This powerful scanner offers 600 x 1200 dpi resolution and 48-bit color for incredible detail on scans up to 11.7" x 17".

With its Xenon lamp, the Epson GT-15000 is ready in an instant and does not require warm-up time. Speeding through two-page spreads in a single scan, it can accommodate a variety of documents. It even offers an optional Automatic Document Feeder (ADF) for scanning up to 100 sheets without any user intervention, and without sacrificing image quality.

The scanner's unique four-line CCD allows it to blaze through each scanning task at remarkable speeds. When using the ADF, the Epson GT-15000 scans up to 16 ppm for monochrome and 10 ppm in color (letter size, 300 dpi in Draft Mode). And, the scanner's durable design allows it to easily handle everything from small receipts to large financial reports. In fact, it offers automatic paper size detection so there's no need for complicated settings or selections.

The Epson GT-15000 can quickly accommodate virtually any scanning project. This high-value product includes fast USB 2.0 and SCSI-2 connectivity, with an optional IEEE 1394 interface. In addition, an optional network card is available, enabling busy workgroups to share a single scanner. This, coupled with its high-speed operation and incredible versatility, gives you the power you need, and the productivity you have only imagined, for critical daily requirements.
